Notice of Adverse Benefit Determination

Dear GREGG,

We have finished our review of your provider's request for Releuko. After careful consideration of all available information, we are unable to approve this request due to the following:
Our Granulocyte-colony stimulating factor (G-CSF) policy (Releuko) for rituximab-related neutropenia requires use to be consistent with National Comprehensive Cancer Network (NCCN) guidelines. NCCN Guidelines recommend short course GCSF for prolonged neutropenia without spontaneous recovery. The information provided by your doctor indicates that you initially presented with neutropenia on 1/8/2026 without subsequent labs showing a lack of spontaneous recovery and presence of neutropenia for a prolonged period. Therefore we are unable to approve Releuko at this time.

Our decision was based on clinical guidelines and/or your plan's conditions for coverage. A copy of a more detailed clinical rationale is available upon request.

If you believe this decision is not correct, you have the right to request an appeal. In addition, if we continue to deny authorization for Releuko, you may submit a 2nd level appeal. We will review the denial and issue a final decision. To begin a standard or expedited appeal, you may call or send a written request, along with any additional information to:

Archimedes, LLC
Attn: Appeals Department
5250 Virginia Way, Suite 300
Brentwood, TN 37027

Or Fax to:
